

SOFTWARE UPDATE

Get the Most Out of Your DROID ERIS by HTC

Enjoy improved performance with these OS enhancements. Verizon Wireless is pleased to announce a new software update for your Droid Eris smartphone. The Droid Eris software version ROM: 2.36.605.1/Radio: 2.42.00.04.12 update includes numerous enhancements and improvements.

Enhancements:

- Pinch-to-zoom is now available when using the Gallery and Google Maps.[™]
- New support for voice-to-text entry.
 - Whenever a text-entry box appears, simply tap the microphone icon on the virtual keyboard and speak.
- New Gallery application with 3D layout. View and share photos taken with your phone and images from your online Picasa Web albums.
- New Leap thumbnail view lets you pinch to jump between the seven panels on your home screen.
- Additional calendar views and easier access to contacts make navigating even quicker.
- Google Maps with Navigation provides free, traffic-enhanced, turn-by-turn navigation.
- With the Enhanced Android Market,[™] you'll enjoy a better browsing experience as well as even more applications, including Verizon Wireless content featuring self-service applications.
- Ability to log onto and access multiple Google accounts at once.
- Support for 19 Microsoft[®] Exchange Server policies makes your phone more secure and business friendly!¹
- Desk Clock intelligently dims your screen and displays the current time while charging.
- Location-based cinematic full screen weather keeps you on top of changing conditions.

Improvements:

- Free Yahoo![®] Mail is now supported—simply sign in with your Yahoo! email address and password.²
- Longer battery life due to power savings.
- Improved YouTube[®] video playback.
- Better Bluetooth[®] support, including contact transfer.
- Automatic settings for POP3 verizon.net email accounts.

Droid Eris by HTC

- Added support for stand-alone Wi-Fi when device is in airplane mode.
