

## **iGolf Mobile Available in the Android Market**

*Free Rangefinder with GPS Data and Listings for Over 33,000 Courses*

**SAN DIEGO, July 23, 2010** – L1 Technologies, parent company of the [iGolf](#) brand, has announced the release of iGolf Mobile for Android enabled phones. The application is a free download and includes professionally mapped GPS data and course listings for more than 33,000 golf courses worldwide. iGolf Mobile allows golfers to improve their scores by instantly finding accurate distances to key points on every hole for detailed shot planning and club selection.

### **Free Membership Features**

iGolf Mobile includes precise distance to the front, center, back of the green and custom points (bunkers, water, hazards) on each mapped hole. Golfers can also use the app to measure shot distance, keep score for up to four players and track handicap/statistics.

Access to the latest golf news and exclusive opinion articles, as well as independent course, equipment and travel destination reviews are available within iGolf Mobile. An interactive map of the first hole on every course, showing the distance to any point on the hole, is also included for free as a premium membership preview.

"We are excited to bring an enterprise level golf GPS application to the Android Market," said Gary Symington, General Manager of the iGolf Division. "iGolf Mobile is a powerful, free application that makes the latest golf GPS technology available to any golfer with an Android enabled mobile phone."

### **Premium Membership Features**

Golfers who upgrade to a Premium iGolf Membership can access detailed, interactive hole maps with multi-level zoom for detailed shot planning on available courses. Premium maps provide distance to any point on the hole, allowing golfers to measure the exact distance to pin locations, hazards, lay up points and any other target on the course. Premium Membership is available on a monthly (\$5.00) or annual (\$50.00) basis.

### **Android Market**

iGolf Mobile is now available as a free download from the Android Market. Golfers can visit the Market on their Android enabled mobile phones and search for "iGolf," or scan the QR code below to access the application. For more information visit: [iGolf Mobile for Android](#).
